

MANUFACTURING, INC.
PRECISION METAL COMPONENTS

Close Tight Tolerance Manufacturing

1922 Elise Circle, Corona, CA 92879
www.proformancemfg.com
Since 1987

Stamping | Deep Draw | CNC Machining | Spinning

We are a contract manufacturer of precision metal components. Specializing in deep draw and metal spinning processes, as well as a complete array of metal stamping/forming. We have extensive experience with all common alloys as well as an emphasis in glass to metal sealing and nickel alloys. We also offer CNC turning/milling services. Founded in 1987 by principals with over 100 years of manufacturing experience and three generations of a commitment to strong business practices of shipping good parts on time.

Providing precision metal components capabilities

Deep draw stampings, progressive die stampings, precision metal stampings, metal spinning, CNC machining, secondary operations to complete requirements, Class A tool and die shop for all tooling needs, as well as approved and certified sources for process finishing.

Proformance Manufacturing works with all standard metal alloys and specializes in Kovar (iron nickel cobalt), 42% nickel iron, nickel alloys, Monel, molybdenum, OFE copper, cupronickel, Inconel, titanium, and hasteloy to name a few.

Industries served

Aviation, space, defense, automotive, electronics, light, hardware, medical, oil and gas industrial, instrumentation, laser systems, optical sealing and thermal management to name a few.

Customer list (partial)

Am-Safe Aviation, Coherent Laser Group, Control Products, Esterline Power Systems (Leach Aircraft), Raytheon, GE Aviation, Adams Rite Aerospace, Schlumberger, Senior Aerospace SSP, Staco Systems as a small list.
